Photographs by Don Dunbar

perspectives

Don Dunbar rediscovers the waters of Passamaquoddy Bay on each adventure. The resident photographer on the *Sylvina Beal* and the *Halie and Matthew*, two sailing vessels that hail from his hometown of Eastport, Dunbar has the dedication and instincts to be at the right place and time in order to capture the light and mystery of his Downeast world. Scenes that he has witnessed countless times continue to inspire this photographer and, in turn, offer the many fans of his work the opportunity to take these visual experiences home. In a world where just about everyone has a digital camera, Dunbar's attention to detail and patience to wait for the perfect moment make him a worthy photographic steward of one of the world's most beautiful places.
